WHAT'S DOING!

HEAR! HEAR!!

"Shameful Frost."

The following, written by one of our professional men, was received, Monday morning:

"Dear **Rounder:**—When will Negroes learn? On Saturday night, May 24, J. Walter Wills fooled Cleveland leaders **good** with his "An Appreciation of Outstanding Achievements" smoker. The professional Negroes all turned out to hear Anthony Overton and Robert S. Abbott of Chicago, John R. Hawkins and Emmett J. Scott of Washington, D. C., A. H. Martin of this city, and Robert L. Vann of Pittsburgh on Wills' invitation. **None of these men except Martin were** there, at Wills' undertaking rooms in E. 55th St., as he announced they would be. Wills fooled us again. J. Walter Wills is running for state representative and this was his scheme to get a little cheap, free advertising. All the white judges he could get, and other white politicians, were there before Negroes gathered. At 12:30 (midnite) only John Ruskin cigars had been passed out. Later on a **very** light luncheon was served. We are too busy to stop our profession for one man's self promotion.

"Square Shooter."

"Jim-Crowing" Their Own?

George Sharer, Son and Parrish, undertakers, 2436 Prospect Ave., on order sent their invalid coach to Lakeside hospital, Tuesday, to carry a woman of the race to her home in E. 31st St. The driver of the coach, when he saw her at the hospital, refused to take her home, saying he could not do so because of an "agreement with colored undertakers not to haul colored invalids" and suggested Undertakers Wills and Slaughter for the service. The invalid coach was to cost $5. The woman's friend hired a taxi which took her to her home, driving slowly and carefully, and the driver helped her into the house. Cost, **sixty-five cents!** This would suggest hiring a taxicab instead of an invalid coach when needed, especially if it is a fact that our undertakers have any such colorline understanding or agreement with the white undertakers of this city. **Speak up**, gentleman!

Just why were Atty. Arthur S. Day and Senator Geo. H. Bender, both anti-Maschke to a certain extent, introduced **before** the guest of the evening, Mr. Maurice Maschke, Monday evening, at the reception in his honor given in Elks' hall by "The Blossom Triplets" and their "jim-crow" Republican league of Cuyahoga County? There has been considerable discussion of this phase of that political and social function, all week. What truth is there in the statement that there was a hot fight about midnight that took he presiding officer of the affair home in a hurry?

Mrs. Mary Bradley, E. 84th St., and her sister, Isabella Garrett, are visiting their sick sister who is improving, in Chicago.

Hon. Chester C. Bolton.

M. A. Compagna, for several years connected with the city employment agency, has been recommended by Congressman Bolton as superintendent of the World War Veterans' employment bureau to be opened here, this month, a dispatch from Washington states. The bureau will be part of the U. S. department of labor employment service. Bolton recommended the appointment of Miss Millie Millman as secretary of the agency, which is to serve ex-service men under a $100,000 appropriation made by Congress, a few weeks ago. What's the matter with recommending some of our war veterans for appointment in the agency or bureau, Mr. Bolton? They, too, are **entitled** to such recognition.

IT PAYS AT LEAST $30,000 A YEAR!

The Central Ave. Street Car Line—Finally Forced By "The Gazette" to Admit This—Our Ohio Mob Violence Act.

May 23, 1930.

Editor, "The News."—Several weeks ago in a communication to your paper, I took issue with Mr. Ballou, tractioner, who had announced the Central Ave. street-car line as one of several that were losing money. I was very pleased indeed to read in your paper of Thursday the statement of his engineering assistant, Arthur F. Blazer, who said that the Central Ave. line "was not a loser." His other statement that patrons of that line "could use Cedar and Scovill Ave. lines without inconvenience," is not true, particularly in bad weather, winter and summer.

Then too, the service on the Scovill Ave. line is very nearly as bad as that on the Central Ave. line because two more regular runs were taken off of that line, May 16. Better service on both lines will materially increase their receipts.

Harry C. Smith.

The Law Deserves the Credit.

May 30, 1930.

Editor, "Cleveland News."—In a recent issue of The News a writer has a communication headed, "Mobs in Texas," in which occurred the following sentence:

"As I see it, the reason that Cleveland escapes such disgraceful occurrences is because the few Americans living here are too widely scattered to ever form a mob."

It would be interesting, Mr. Editor, if the writer would explain to the many readers of The News just what he means when he says "The few Americans living here," because there are decidedly more than a "few Americans" living in Cleveland. However, the main reason Cleveland and Ohio "escapes such disgraceful occurrences," as the recent Texas lynchings and "burnings-at-the-stake," is to be found in the fact that this state has an effective mob violence act or anti-lynching law, which has stopped that sort of thing to the minimum ever since its enactment in 1896.

STAGE CALLS DOLORES!

Heir to $24,000,000 to Be in "The Harmony Duo," It Is Said.

New York City.—The four-times married Dolores Elizabeth Ford Matthews (white), age 24, heiress to $24,000,000, seeks a career. She's going on the stage. This she announced, Monday, while in company with her newest husband, Louis Matthews, or Di Matti as he was known when acting as a "human pincushion" in vaudeville, and Miss Mary MacDowell who was the beautiful and talented young girl's chief witness in the court proceedings, May 7, that freed the heiress from a marriage with Eugene Newton, mulatto cafe entertainer now conducting a cabaret in Paris, France. According to their latest plans, Miss MacDowell, who appeared on the Orpheum circuit, last year, and Dolores, who once studied music in Detroit, will do a harmony duo act.

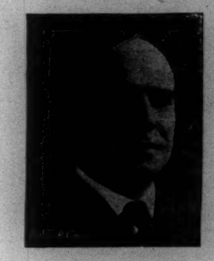
TRYING TO TAKE IT AWAY FROM THE FORMER COUNCILMAN

Trying Also to Reverse Judge Kramer's Decision—What These Two Fights Are All About.

A real surprise move—one that will delay for six months a final ruling on the appeal of former City Councilman Thomas W. Fleming—was made, Monday, in the U. S. Supreme Court at Washington, D. C. Alex H. Martin, Fleming's attorney, filed a motion asking that the sentence of two years and nine months be vacated and Fleming be granted a new trial. Filing of this appeal was unexpected. It had been said that Martin would file a **plea** for a writ of certiorari, asking the high tribunal to assume jurisdiction in the case. Such a motion would have been disposed of within a week, it was pointed out. The clerk's office of the Ohio Supreme Court at Columbus, said that the filing of the appeal would suspend execution of the sentence until a final ruling is handed down. Although U. S. Supreme Court Justice James C. McReynolds declined, in Washington, Monday, to grant Martin a stay, he was quoted in Washington dispatches, Monday, as saying that the Ohio court's stipulation "until the next sitting of the Supreme Court of the United States," meant until the next term of the court, which begins Oct. 6. In a lengthy brief filed with Justice McReynolds, Martin cited eight reasons why Fleming should be given a new trial. The brief charged that the Ohio Supreme Court was in error when it handed down an adverse ruling in the case, that Fleming was not convicted of the crime for which he was indicted, and that the indictment was faulty in that it accused him of accepting a bribe of $200 while the only testimony offered was in connection with the acceptance of a check for that amount. A rumor was being circulated, Monday, that there are "new developments favorable to Fleming" who has been waging a fight for liberty since his conviction 15 months ago. Martin was accompanied to Washington by Thos. W. Fleming Jr., and E. M. Tyler, young attorneys. Justice McReynold's statement will give Martin "plenty of time" to prepare his appeal from the State Supreme Court, which upheld Fleming's conviction. If the U. S. court denies the appeal Fleming's last resort will be to ask Gov. Myers Y. Cooper to extend executive clemency.

Miller's Second "Tempest in a Teapot."

County Prosecutor Ray T. Miller's "tempest in a teapot" in ordering Flemings' arrest, Tuesday afternoon, and having him incarcerated in the county jail from that time until Wednesday morning when Common Pleas Judge Samuel E. Kramer granted Atty. Wm. J. Corrigan's writ of habeas corpus and ordered Fleming freed, was for naught unless the cheap "playing to the gallery" affords him a little help in his candidacy for re-election, this fall. As last week, so this week, Miller had the daily papers full of wordy piffle, all calculated to stir up the community and make it believe that Fleming should not only be jailed but hustled off to Columbus to begin serving the sentence. Indeed, Miller said that "unless Martin could produce a stay of execution from the U. S. court, Fleming would have to begin serving his term immediately." Well, Judge Kramer decided that such a stay of execution was not necessary, in the face of the stay granted by Judge Carrington T. Marshall of the Ohio Supreme court which will run until the U. S. Supreme court rules on Fleming's final appeal in October. This will give him at least five additional months to use in his effort to regain his freedom. Martin has thirty days in which to perfect the appeal he has filed in the U. S. Supreme court at Washington, D. C. The jailing of Tom, last and this week, was a "high-handed piece of business" from a legal viewpoint and really nothing but political hokum. Following the granting of the court's order, freeing him from the sheriff, Tom went into Judge Kramer's private room, shook hands with and thanked him. Judge Kramer is one of the fairest and best jurists on the local bench. This latest court battle arose over the fact that early this month Chief Justice Carrington T. Marshall of the state supreme court granted Fleming a stay until "one week after the next **sitting** of the United States supreme court. The court met on May 19, and then again, Monday, May 26, when the appeal was filed. The question that was alleged to be in doubt was whether the May 19 session was the "next sitting" or whether the "next sitting" refers to the convening of the court in October. Neither the **meeting**, May 19, nor the one May 26, Monday, of the of the U. S. Supreme court, and our county prosecutor ought to (and may) have known this. It is really **too doggone bad that the county** prosecutor's office and the local daily U. S. Supreme court, was a "sitting"



Judge F. H. Kramer.

newspapers have got to let Tom alone for four or five months. They have sure "worked on his bones" for over a year, almost constantly. The entire community, with him and his wife, will appreciate the relief that the U. S. Supreme Court has just afforded.

Martin maintained that since the Civil war the word "sitting" had been synonymous with "term" and his interpretation was that "the next sitting" meant October. Judge Kramer declared the latter interpretation was the only intelligent one he could make of the court's mandate, because otherwise the ruling would have been a futile gesture and would give Fleming no time to perfect his appeal to the U. S. court.

The Latest Developments.

County Prosecutor Miller was in Washington, D. C., Thursday, to file a motion in the U. S. supreme court asking it to dismiss, at its present session, Fleming's appeal. Another move by the prosecution was also under way here, where a rehearing of Wednesday's habeas corpus action which freed Fleming was to be asked in common pleas court. At Washington, Thursday, Miller said he would ask for dismissal on grounds that no constitutional or federal question was involved. He also said that the appeal had purposely been delayed until the last week of the court's present session in order that the case might be held over until the October session. Miller is "dying hard," apparently, but in all probability is so active for reasons already stated in this article. His effort to secure a rehearing of the habeas corpus action of Wednesday morning will undoubtedly result just as **unfavorably** as his Washington effort.

MASCHKE PLEADS FOR UNITED FRONT.

Predicts Exciting Campaign; Honored at Banquet.

Maurice Maschke, Monday night made an earnest plea for party unity in the August primaries, predicted the most exciting campaign in many years and told 400 listeners at a reception given in his honor that the Republican party would need all its strength to attain success. The reception was held in Elks' Hall, E. 55th St., under auspices of The "Colored" Republican Club.

"In this campaign there will be issues not raised for many years," Maschke said. "Party lines may be shattered to some extent. All our strength will be needed in November. If we can go through without the candidates tearing one another to pieces we will be successful. It will be imperative that the strongest possible selections be made in August. I want you to feel that, even if we cannot agree on a selection, there must be no ill feeling. There can be no quarrel with honest differences of opinion."

Nearly all the Republican councilmen were present at "The Blossom Triplets" reception. Among the speakers were Mayor John Marshall, State Senator George Bender, A. J. (Gus) Hirstius, Alex Bernstein, State Representative Perry B. Jackson, former Assistant Law Director Ben F. Levin, Law Director Harold H. Burton and County Commissioner Walter E. Cook. Hirstius concluded his speech with the announcement that:

"I have no enemies to punish, no friends to reward. I live and breathe and die for the Republican party under the leadership of Maurice Maschke."

The three "Negro" councilmen, "The Blossom Triplets," Councilmen George, Payne and Bundy, are not strong enough to be able to get their constituents better service on the Central Ave. street-car line, and the line runs right thru the heart of the city, too. What do you think of that?

ROBESON'S OTHELLO

Paul Robeson, Afro-American actor, appeared as Othello in the Shakespearean tragedy in London, last week, Monday evening, and the drama won the greatest acclaim awarded to a play by Avon's bard in the last generation. The play was produced by Maurice Browne, who produced "Journey's End," and who appeared as Iago, with England's leading actress, Peggy Ashcroft, as Desdemona; Sybil Thorndyke as Emilia and Laurence D'Orsay as the duke. Hannen Swaffer, one of the most talked about critics in London, wrote:

"A wonderful audience cheered Robeson's triumph. His art conquered everything. Shakespeare's lines have never been uttered with more force or greater sonorousness."

Robeson received many recalls. Twenty times, the opening night, the curtain was raised and lowered to applause for him. Cable dispatches last week, said such demonstrations by audiences are rare in England. Robeson is known there as a singer (soloist) and actor, and good, too. This is his first appearance in a play by Shakespeare. All of the company, except Paul, are white. Miss Ellen Von Vilkenburg, an American, who put on the new production in England, is said to intend to bring it to New York. Robeson, responding to the applause, last week Monday night, in London, said, "I took the part with much fear. Now I am so happy!"

ASK GOV. MYERS Y. COOPER FOR RECOGNITION.

The Laymen's League, Roy S. Rector, president, and Louis Williams, secretary, last week forwarded a strong set of resolutions to Gov. Myers Y. Cooper at Columbus, requesting him to appoint at least one Afro-American member of the state board of clemency and the state industrial commission. The league also asks for representation for our "men and women of character and standing" among the employees of the commission. All of which is but fair and less than Gov. Cooper promised his Afro-American supporters when a candidate, a year ago last fall. Indeed, Gov. Cooper has practically ignored, in his hundreds of appointments to office, his Afro-American constituents thruout the great state of Ohio. The appointment of "Rev." E. W. B. Curry, until recent months pastor of a Baptist church in Springfield, to a minor position at the head of a "jim-crow" bureau in the State Charities department is a negative one in that it hurts rather than helps both the governor and our people. It will be recalled, Curry was the "Negro" who opposed his own people and sided with the Ku Klux Klan element of Springfield, several years ago, in the "jim-crow" school fight which it took our people of that city several years to win. Director Hal Griswold of this department, a Clevelander, undoubtedly made the Curry appointment on the suggestion of Gov. Myers Y. Cooper, and it is about "the sum and total" of all the recognition given our people of the state of Ohio by the governor.

THE MASCHKE RECEPTION

The success of the public reception, Monday evening, in honor of Mr. Maurice Maschke, head of the local Republican organization, was due entirely to his popularity among our people largely because of the support, through the Republican organization, he brought, last fall, to the candidacies of our three councilmanic candidates. Of course, we realize that our people gave him and the Republican organization full return for the same, possibly even more than that. But after all is said and done, and the fact made plain that he needed our support as much as we needed his, and also the fact that he had much more to lose than we had, last fall, there can be no question as to the correctness of our statement that the success of the reception in his honor on Monday evening at Elk's hall was due to his excellent standing at this time with the masses of our people in this community. The reception would have been as great a success, however, and possibly greater, if it had been sponsored by any other of our several local political organizations, and therefore should not be regarded by anyone as rehabilitation, even in a small way, of "The Blossom Triplets" (Councilmen George, Payne and Bundy) who head the "colored" Republican "league" (simply a club) of Cuyahoga county. There is nothing "the Triplets" can do to make the masses of our people of the third and fourth districts, and the entire city, forget or overlook their most reprehensible and traitorous conduct in violating their pledge to do all in their power to help oust from office Director of Welfare Dudley S. Blossom, as well as City Manager Wm. R. Hopkins. They "waived" their opposition, but not that of their constituents of color and all of our people of this community.

HOPKINS-PARKER-McCULLOCH

Wm. R. Hopkins, former city manager of Cleveland, was the speaker at St. James forum, Sunday. In introducing him, Atty. Charles W. White, chairman, said:

"I understand that there is some chance of Mr. Hopkins being a candidate for the U. S. Senate. All I wish to say on the subject is that the Republicans had better put up some other person for the office than McCulloch or there will be a lot of Republicans voting for a Democrat."

Mr. White indicated an inconsistency in his statement, even if he did not voice the same. Wm. "City Hospital" Hopkins is even more objectionable to our voters of this state than Senator Roscoe C. McCulloch is supposed to be, and we are free to confess that there is an element of doubt in his case which we propose to study carefully.

In the first place, Hopkins is guilty of an exhibition of race prejudice which kept our boys and girls from training in the city hospital for over five years (all the time he was city manager of Cleveland), and persisted in this until the very last day of his tenure of office. We cannot forget or overlook that fact.

Judge John J. Parker of North Carolina, when the Republican candidate for governor of that state, ten years ago, is quoted by a leading North Carolina daily newspaper as saying "that the participation of the 'Negro' in politics is a source of evil and danger to both races and is not desired by the wise men of either race or by the Republican party of North Carolina." Following this, and only five months ago, the Judge is said to have rendered a decision "holding unconstitutional the Richmond, Va., segregation ordinance," something that will undoubtedly soften with many, if it does not entirely wipe out the impression made by his distressing political reference of ten years ago.

If the foregoing be true, and we have every reason to believe that it is, it is going to place Senator Roscoe C. McCulloch in a far better position in his campaign now on, as far as our people are concerned, than Chairman White and at least one other think.

We cannot believe that anyone else in the audience at the forum at St. James A. M. E. church, Sunday afternoon, outside of its "gallery-playing" voluble, erratic and inconsistent pastor, the Rev. D. Ormond Walker, could possibly give utterance to the following:

"And I want to wish you, Mr. Hopkins, God speed in your journey to the U. S. Senate."

Lord, have mercy!

The statement in a local daily paper, Monday, to the effect "that Maurice Maschke, and the local Republican organization, that threw Hopkins out of the city managership, would support Hopkins or Geo. H. Bender for the senatorship is simply ridiculous.

TEXAS MOB ACCUSED

Four Charged With Taking Guard's Gun Before Fire

Sherman, Tex.—Federal charges of "taking a rifle from a national guardsman" were on file here, Tuesday, against four men as a result of rioting here, May 9, when the courthouse and Geo. Huges, only charged with attacking a white woman, were burned. The federal charges were preferred against John Simmons, Will Hamilton, Floyd Sheppard and John Edwards, all white. Bonds were set at $2,000 each by U. S. Commissioner Paul Kern. Randolph Bryant, federal district attorney, said the maximum penalty upon conviction for such an act was $10,000 fine and one year imprisonment. Thirteen men have been indicted in the state court on riot charges.

OHIO'S MOB VIOLENCE ACT

OR ANTI-LYNCHING LAW LEADS THE COUNTRY IN EFFECTIVE LEGISLATION

Against the Mob and Lynch-Murder—Three Years' Work of a Member of the Race—Also His Ohio Civil Rights Law.

Our mob-violence or anti-lynching bill was introduced in the Ohio legislature in 1894 and re-introduced in 1896. It took the Hon. Harry C. Smith, editor of The Gazette, just three years to secure its enactment into law. The Ohio Supreme Court has several times upheld the constitutionality of the law and it has been very effective. Illinois, Pennsylvania and New Jersey have followed Ohio's lead and enacted mob violence or anti-lynching laws which are copies of our Ohio law. Several other northern states and at least one border state (Kentucky) have also enacted anti-lynching laws, in recent years, like Pennsylvania and New Jersey The Ohio law follows:

MOBS.

Section
6278. "Mob" and "lynching" defined.
6279. "Serious injury" defined.
6280. Damages in case of assault.
6281. Damages in case of lynching.
6282. Damages recoverable by legal representative of victim of lynching.
6283. Person suffering death or injury by mob trying to lynch another.
6284. Limitations of action.
6285. Order to include recovery and costs in tax levy.
6286. Guardian's custody, etc., fees.
6287. County's right of action against member of mob
6288. County's right of action against another county.
6289. Non-relief from prosecution.

Section 6278. A collection of people assembled for an unlawful purpose and intending to do damage or injury to any one, or pretending to exercise correctional power over other persons by violence and without authority of law, shall be deemed a "mob" for the purpose of this chapter. An act of violence by a mob upon the body of any person shall constitute a "lynching" within the meaning of this chapter. (93 v. 161 2.)

Section 6279. The term "serious injury," for the purpose of this chapter, shall include such inquiry as permanently or temporarily disables the person receiving it from earning a livelihood by manual labor. (93 v. 161 3.)

OUR OHIO CIVIL RIGHTS LAW

Upon the request of many readers of The Gazette we print below the text of the Hon. Harry C. Smith's Ohio Civil Rights law which the editor had enacted while a member of the 71st General Assembly, in 1894:

The General Code of Ohio:

Sec. 12940. Whoever, being the proprietor or his employee, keeper or manager of an inn, restaurant, eating house, barber-shop, public conveyance by land or water, theater or other place of public accommodation and amusement, denies to a citizen, except for reasons applicable alike to all citizens and regardless of race or color, the full enjoyment of the accommodations, advantages, facilities or privileges thereof, shall be fined not less than fifty dollars nor more than five hundred dollars, or imprisoned not less than thirty days nor more than ninety days, or both.

Sec. 12941. Whoever violates the next preceding section shall also pay not less than fifty dollars nor more than five hundreds dollars to the person aggrieved thereby to be recovered in any court of competent jurisdiction in the county where such offense was committed.

This law has repeatedly been held constitutional and good law by the Ohio Supreme court. The trouble is our people will not use it as often as they should, but expect it to do for them what they should and must do for themselves, under it, in the courts.

HERE'S AN OPPORTUNITY!

"The Old Reliable" Gazette desires an active agent and correspondent in every city and town in Ohio and neighboring states having a number of Afro-American residents. Only a little time on Fridays or Saturdays is required to make some money.

We are especially desirous of hearing from persons in the following named cities: Springfield, Columbus, Toledo, Steubenville, Zanesville, Wilmington, Xenia, Washington C. H., Lancaster, Piqua, Lima, O., and other places, particularly in Ohio, where we have none.

Write to the editor of The Gazette, 226 West Superior Ave., Cleveland, O., and terms will be sent promptly. Our readers will oblige us greatly by sending the addresses of persons in the cities named, and others in the state to whom we can write relative to the matter.

PROTEST! PROTEST!!

To submit in silence when we should protest makes cowards out of men. The human race has climbed on protest. Had no voice been raised against injustice, ignorance and lust, the inquisition yet would serve the law, and guillotines decide our least disputes. The few who dare, must speak and speak again to right the wrongs of many.

Champion Slaughters.

Eight games are listed in class B of the C. A. B. A. The Slaughter Brothers, last year's champions, and our only member of the organization, were idle, Sunday, so the other clubs had an opoprtunity to win headline space. The Slaughters, incidentally, seem well on their way toward another title. The Berichon Fords, whom they blanked, Sunday week, had better results when they met the Red Rose Auto Supply at Woodhill, No. 2, Sunday afternoon.

Chicago, Ill., May 27.—The Chicago stadium has offered young Jack Thompson, of Oakland, Cal., who won the world middle-weight title from Jackie Fields at Detroit, early this month, $75,000 to defend the championship against Jimmy McLarnin, next September. McLarnin also has been made an offer, but neither Pop Foster, his manager, nor Ray Alvis, Thompson's pilot, has replied.

Tigers to Play Barberton.

The Cleveland Union Tigers are entertaining the strong Barberton team in a five-game series opening at Kinsman Field, yesterday. Two games were played in a Memorial day bill, one will be played today, (Saturday), and another double header, tomorrow. Simpson Failed to Equal 9.5.

Dyche Stadium, Evanston, Ill.—George Simpson (white), Ohio State flyer, defeated Eddie Tolan, Michigan University star and holder of the world's retord of 9.5 for the 100-yard dash; in the century opening the finals of the western conference outdoor track and field championships, last Saturday, by a yard and a half in 9.7 seconds. He also defeated Tolan in the 220-yard dash, to climax the finals of the western conference outdoor track and field championships. The slow time was a surprise as the track was firm and lightning fast. Neither Simpson nor Tolan used the controversial starting blocks.

In the "prelims," the day before, Tolan won his heat in the century with three yards to spare, in 9.8 seconds. Simpson, discarding the starting blocks, shaded Tolan's time by winning his trial heat in 9.7. Tolan used starting blocks, but both decided to do without them in the finals. Simpson flirted with world's record time in winning his preliminary heat of the 220-yard dash, flashing over the wet cinders to capture the furlong in 21 seconds flat. Tolan also easily qualified for the finals by winning his heat in 21.8 seconds.

A BLACK JEW!

A Bushman Who Ran Away From Africa to Civilization Admits He's Ambitious Now.

Bate Kindai Amgoza Ibn Lo Bagola, West African bushman, nattily attired in a light brown, double-breasted suit, paced up and down in his room in Hotel Statler, Tuesday, with a very swanky air. He came here to address students at Nathan Hale school. He was born in the unexplored bush region of the French Soudan in West Africa and is what is known as a "black Jew."

"Our sect observes the Jewish rites," he said. "Our traditions tell us that about 1500 years ago our ancestors came to Africa from Judea. In our tradition **there is only one Jew,** the black Jew. We recognize no others. When I was seven years old, I ran away to the coast with thirteen other boys. We got there and clambered on board a freighter bound for Scotland. When we got there, I ran off the boat. I didn't have any clothes. A big crowd gathered around. A man stepped out, took me by the hand and led me to his home. He educated me."

Lo Bagola explained how he went back to Africa at the age of 14, married his quota of six wives, built a little village for them and went back to Europe again.

"Whites' Policy."

Keeping the Negro segregated—keeps him inferior. Born of generations of slavery, thrust back upon himself, **deprived of active competition with the dominant group,** he can only **crawl.** His genius in all but a few directions, is **manacled.**—Cincinnati (O.) Union.

NO BASEBALL SCANDAL THIS SEASON — By RUBE GOLDBERG

I'LL GIVE THE BIG BUM THREE FAST ONES AND MAKE HIM STRIKE OUT
I'D BETTER CALL A STENOGRAPHER TO TAKE DOWN THOSE WORDS
A PITCHER AND CATCHER WILL BE ALLOWED TO TALK ONLY IN THE PRESENCE OF A WITNESS.
IT ALL LOOKS PERFECTLY ON THE LEVEL SO FAR
THIS SOUNDS A LITTLE SUSPICIOUS I HEAR TWO NICKELS RATTLING IN HIS POCKET
DETECTIVES WILL FOLLOW THE BIG LEAGUERS AROUND THE BASES TO MAKE SURE EVERYTHING IS ON THE LEVEL.
THE OUTFIELDER WILL NOT BE LEFT ALONE FOR A MINUTE.
HE'S BREATHING HEAVILY- I WONDER IF HIS CONSCIENCE IS CLEAR
EVEN AT NIGHT THEY'LL BE CLOSELY WATCHED
HE'S A SECOND BABE RUTH

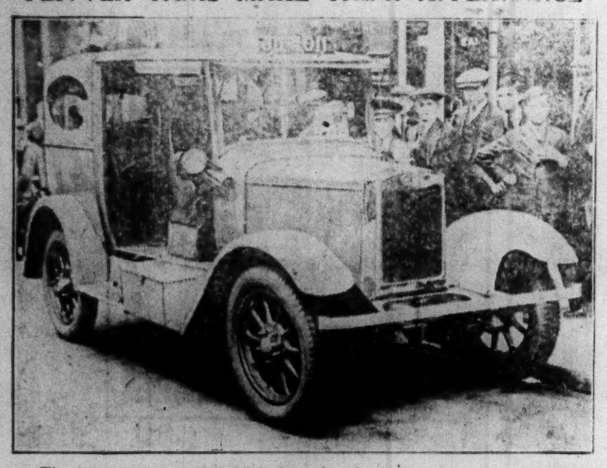
FLIVVER TAXIS MAKE THEIR APPEARANCE



The new two-seater taxi, with the safety-first sliding door, opening behind the driver's seat, which aroused considerable interest on its first appearance on the streets of the British capital.

BILL, THE BUS DRIVER SAYS

"Hitch your brain to the thing you're supposed to be doin'. If that thing happens to be operatin' a motor vehicle, tie it with a double knot so it won't pull loose."

(By MARCUS A. DOW.)

Everybody that is old enough to talk about the "good old days" may remember a homely sort of expression your teacher used when you was dreamin' instead of studyin'. She'd say, "Johnny, you're wool gatherin'."

There's no way of tellin' where such sayin's come from. They just spring up sort of natural like. We hear plenty of phony words today such as "He's nutty," meanin', the bird referred to is crazy, or "She knows her onions," meanin', of course, that there is a jane you can't put nothin' over on. Well, wool gatherin' was one of them wise cracks our grandmothers pulled when they wanted to tell somebody his or her mind was wanderin' around aimless like.

Accordin' to my best calculations there is at least 15,000,000 wool gatherers drivin' automobiles every day in this land of free thinkers and careless drivers. The records show, accordin' to the newspapers, 30,000 humans get killed—bumped off, annihilated or wiped out complete—and half a million get hurt—punished or contract drivin' pains—in automobile accidents every year.

A thousand different reasons, contributin' causes and what have you are responsible for this smashin' American tragedy. But way down at the bottom of most of the causes of these accidents is a main cause that can be described by a little old fashioned grandmotherly wise crack, viz.: The driver was wool gatherin'. Perhaps he was thinkin' about the baseball score or latest market quotation, or she was wonderin' if Mrs. Jones hat cost more'n hers.

Wake up, you dreamin' drivin' fools, before old man Bad Luck comes along and slams you one that'll end your drivin' career permanent or make you wish it had. Keepin' the mind on the job of drivin', no matter if it's a tin lizzie or a Rolls-Royce, is the most important safety rule in the catalogue! So get hep to yourself and stop this here wool gatherin'.

Modern Automobile Now Biggest Wealth Maker

The modern automobile is Uncle Sam's leading wealth maker as well as the world's foremost manufactured product. In addition to rolling up an annual wholesale value approximating $4,750,000,000, American-made cars pour more than $700,000,000 in wages a year into the pockets of workers, use the major part of 11,000,000,000 gallons of gasoline consumed annually in the country, and pay more than 35 per cent of the country's annual highway bill, which runs well over $1,500,000,000.

AUTOMOBILE NOTES

Even the bus driver takes the family out riding on Sunday.

• • •

More than $2,500,000,000 was spent for road construction and maintenance in the United States during 1929.

• • •

A broken spring, on either the front or rear axle, will result in loss of control, and, sometimes, in a serious accident.

• • •

A slight pressure is all that is needed to bend the luggage carrier on the rear of the car. Do not use it for a bumper.

• • •

Plain, modern screwdrivers are best to work about the car. Painted handles are likely to cause blisters on the hand.

• • •

During the ten years ending with 1929, motorists in the United States scrapped 15,195,000 cars, for which was paid $12,156,000,000, or an average of $800 apiece.

THE MOTOR QUIZ

(How Many Can You Answer?)

Q. In what countries must traffic keep to the left?

Ans. Great Britain, Hungary, Sweden and the Irish Free States.

Q. How does Germany rank in automotive exports?

Ans. Germany is now in sixth place. Before the war she ranked next to the United States and France in automotive exports. In 1928 Germany showed an increase of 71 per cent over the previous year in automotive exports.

Q. What is the first thing to do when front wheels "shimmy?"

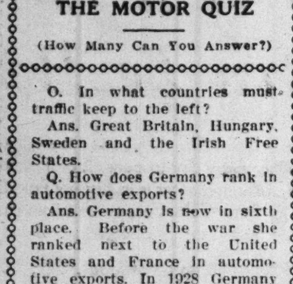
Ans. Check for proper tire inflation.

Q. When a good engine shows a tendency to spit back on hard pulls or loses its speed and power for any length of time, what should be done?

Ans. Examine spark plugs first, then fuel lines and valves. A usual cure for this is changing to "cooler" spark plugs.

Ingenious Method of Holding Brake Pedal

A novel and ingenious method of holding the brake pedal while adjustments are being made on the brakes is shown in Figure 3. By setting the wrench so that it is fairly tight on



The Wrench, Clamped to the Clutch, Holds Brake Pedal While Adjustment Is Made.

the clutch pedal shaft, it will hold the brake pedal at any desired position so that the point is easily found where the brakes first begin to take hold.—Popular Science Monthly.

Point Adjusting Quite Easy If Car Is in Gear

One of the things that slows up the work of adjusting breaker points is the difficulty of turning over the engine until the points just open. It seldom can be done with the starter-motor, since the engine has a tendency to stop in the closed position of the points.

The hand crank is the usual way of doing the job, but sometimes the owner does not have his crank handy, and getting it out at best is always a nuisance. In repair shops, therefore, they have figured out a way to accomplish results with a minimum of delay and effort.

The trick is to place the car in gear, with ignition off, and move it a little, forward or backward. This turns the engine very slowly until the points break.

Usually in their open position the points should space somewhere between .015 and .020 inch. It varies somewhat with different makes.

Several Important Hints For Automobile Repairs

Here are several important precautions for car repair work. One, disconnect a lead from the storage battery while working. This prevents anyone from starting the engine. Two, use blocks under a wheel, to avoid the axle toppling off a jack. Three, watch out for gasoline. A broken extension light may produce a spark which will ignite the gasoline. Four, do not hold the head directly under the work in hand. Dirt in the eyes or a slipping wrench striking the face may result. Five, use gloves as far as possible when handling piston rings. Ugly cuts can result from sharp edges. Six, take no chances with light chain or rope garage hoists. Seven, put good blocking under the raised axle.—Science and Invention.

AS AN ITEM OF CHIC GLOVES REGISTER INCREASING IMPORTANCE

HUSBANDS and fathers please take notice, from now on the dress allowance for wives and daughters must be increased. Henceforth and until further notice the budget must be made to cover the expense of gloves ranging from the most formal types to every conceivable kind such as time, place and costume may demand.

At every Paris couture opening, the glove is being made a theme of outstanding importance. Perfectly fascinating long gloves in pastel tints are registering for formal evening wear. A preferred type is the 16-button mousquetaire suede glove in such baby colors as pink, pale blue and light yellow. Worn with the right evening gown, they create nothing less than a sensation.

Long white glace kid gloves are in demand but the eggshell and suede tints are newer. Very handsome and exclusive types finish their top edges with borders of rhinestone or bead embroidery. Offsetting these fanciful creations are the very long black suede gloves, the same considered tres chic worn with colorful evening gowns.

Quaintest of all are the very long and not so long black lace mitts which are complementing the gown made all of lace, also smartly in evidence with demure frocks which are sleeved with cunning short puffs.

In selecting gloves one needs to consider the style, the color and even the leather in relation to the costume and the other accessories. For afternoon longer slip-ons have became the rage. These are usually of suede or mocha in off-white shades, yellow or pinkish beige to blend with the stockings as a rule. A very smart color note for this season is to have gloves, hat, bag, and shoes of one shade.

Pull-ons with decorated flare cuffs are also considered good style. Several interesting types are shown in this picture, also the newest lace mitts.

With her handsome gown of white bemberg moire, the evening-attired lady as illustrated is wearing an exquisite pair of long pale blue glace kid gloves. Rhinestone buckles and a bow on one shoulder and at the belt provide the only trimming for her modishly fitted-at-the-waist frock.

LITTLE GIRLS HATTED AND FROCKED IN WIDE BRIMS AND GAY PRINTS

THE call of the wide-brimmed hat is heard in the children's realm. From juvenile headquarters comes the welcome news that lovely big leghorns, than which there is no more flattering type for youngsters, has come into its own once more.

A gay print frock topped with a ribbon sashed or banded leghorn worn by a dainty little miss never fails to make a "perfect picture," and the illustration herewith carries the point with emphasis.

The graceful drooping leghorn which this little girl is wearing is trimmed with a broad velvet ribbon matched to the rose color print of the frock. Which is as it should be, for even in the little folks' realm, the costume must present a related color scheme from head to foot to be fashionable. In this instance the winsome dress is made of shantung printed in a delicate patterning which silhouettes blue and rose against a white background.

Designers, manufacturers, also the family dressmaker and home-sewing women in general are rejoicing in the wealth of lovely materials which this season are at their disposal for the making of little folks' apparel. They cite particularly the prettiness and at the same time practicability of printed shantungs and printed linens which flourish in the fabric showings, likewise the wearableness and attractiveness of printed crepe.

In making up youngsters' fashions the very style points which are contributing so conspicuously to the smartness of adult fashions are being exploited in the children's realm with utmost enthusiasm. For instance, the little dress in the picture is styled with the popular cape sleeves, the circular-flare hemline, and a most sophisticated jabot made of self-material.

Another mode which appears in replica of the costumes designed for mother and grown-up sister is the jacket suit, made of lively print silk. Most cunning models in miniature are laying siege to little daughter's heart. Outstanding among these is the jacket-and-skirt suit of printed crepe, as well as those of shantung or linen. For every day wear polka dotted effects are perhaps in the majority. For tots the pleated skirt buttons on to blouse, while older girls may if they so desire find cleverly devised yoke shirts which fit over frilly tuck-ins of dotted swiss, handkerchief linen; also cotton net, which is so very popular this season for frocks and the blouse.

Very charming printed silks, which are designed for the very young, are patterned in quaint Dresden effects, depicting children at play. Suits of monotone pastel spun silks or of flat crepe in a solid color are also voguish for little daughter.

OUR STUDENT NURSES.

Director Dudley S. Blossom's city welfare department leads in the number of "temporary" civil service appointments, with 278, more than 62 per cent of the total number on its roster. Of the 278, one hundred fifty-five are at the City hospital. Of those (155), 79 are graduate nurses and 48 student nurses. Relative to this, Secretary G. G. Swain of the city civil service commission says, the supply of graduate nurses is so scarce that it is impossible to maintain an eligible list to meet the demands of the City hospital and that the same is true of the Tuberculosis hospital where 17 nurses are rated as "temporary" employees. With this Superintendent P. J. McMillan of the City hospital concurs, adding that student nurses are selected **by the principal of nurses upon certain rules of qualifications.**

Thirty physicians, surgeons and dentists are carried on the rolls of the welfare department as "temporary" employees. Dr. R. G. Perkins, consulting laboratory director, the oldest in point of service, on the "temporary" rolls, was appointed Feb. 1, 1913, according to the civil service records. Secretary Swain said only one examination for physicians had been held in the history of the commission and that was for district physicians, in 1924.

Here you have the "low-down" on the department of the city's service presided over by Director of Welfare Dudley S. Blossom. It shows **clearly** how **inexcusable** has been his barring of our student nurses from the City hospital in the last five or six years, and too, in the face of the lack of graduate nurses so greatly needed, not only in the City hospital but also at the tuberculosis hospital, in the face of which there are 79 "temporary" appointments of graduate nurses and 48 of student nurses because the eligible lists of both are far too short to meet the demands of the hospital. At the tuberculosis hospital, the same conditions obtains. Here seventeen nurses are rated as "temporary" employees.

Superintendent McMillan says, "Student nurses are selected by the principal of nurses upon certain rules of qualifications." Our physicians particularly and "The Blossom Triplets", (Councilmen George, Payne and Bundy), must look into these "certain rules of qualifications," immediately, and see to it that some of our girls who desire to enter the nurses' training school at the City hospital are made familiar with them so that they can meet them and enter the school with the **first** class, this summer or fall, when the time comes.

Then too, there is no reason why our physicians, surgeons and dentists should not be represented on the rolls of the welfare department which now carries **thirty** such "temporary" employees. "If Dr. R. G. Perkins, consulting laboratory director, the oldest in point of service, on the 'temporary' rolls, having been appointed Feb. 1, 1913", can hold his position for more than seventeen years, "according to the civil service records," surely our physicians, surgeons and dentists, too, should have such representation in the welfare department, under Director Blossom, and **be given it at once.**

Put it up to "The Blossom Triplets," gentlemen, and at once, and you and our student nurses will fare far better in the matter of positions at the City hospital than you can ever possibly hope to in case of the establishment of a local "jim-crow" hospital, something the sane, sensible and intelligent of our people of this community will **never** tolerate.

FACE LYNCHING CHARGES.

Walhalla, S. C.—Trial of 17 Oconee county alleged mobocrats, including the mayor and night policeman of Walhalla, on charges of lynching Allen Green, 50-year-old Afro-American, has been set for July 7 in the court of general session here. The decision to defer the trial came, Monday, after the grand jury had brought true bills charging the men not only with murder but also with assault and battery, robbery, conspiracy and rescue of a prisoner. Monday's special term of court was ordered after the victim was dragged from the Oconee county jail here on the night of April 23 and carried to a lonely spot where his body was riddled with bullets.

Body Muscles Roar, Rumble

EVERY muscular movement of the human body is accompanied by scraping, rending sounds, but fortunately the ear is not sufficiently sensitive to hear them, according to Sergius P. Grace, assistant vice-president of the Bell Telephone Laboratories, the experimental and research organization of the Bell System.

During a recent demonstration of telephone equipment perfected in the laboratories, Mr. Grace amazed members of the Cleveland Chamber of Commerce by amplifying the "muscle-scraping" sounds until they attained almost deafening volume.

Attaching to a large loud speaker an electro-magnetic pick-up device developed by the laboratories, Mr. Grace placed the mechanism against his cheek and worked his jaw muscles, producing through the speaker a crescendo of rending noises not unlike the crash and roar of thunder.

Mr. Grace has made several interesting demonstrations in Ohio, having delivered addresses at various times in Cleveland, Akron, Columbus and Dayton.

AVERAGE LIFE NOW 46 YEARS.

Death Rate Steadily Declining But Still Too High — Tuberculosis Takes Heavy Toll—South and North.

Atlanta, Ga. — Instead of dying out, as was at one time predicted, Afro-Americans are steadily growing more healthy and their life span is increasing, according to a statement given out by the Commission on Interracial Co-operation. Basing its statements on figures furnished by the U. S. Public Health service and the statistical department of the Metropolitan Life Insurance Co., the Commission says:

"The gloomy prophecies of those who expected the solution of the great American problem through the Negro's extinction have been completely discredited by the experience of the last sixty years. In that period his mortality rate has decreased fifty per cent or more, the present death rate being about 17 per thousand, as against 35 or 40 per thousand in reconstruction days. The present life span of Negroes is about 46 years, which represents a gain in the last decade of approximately five years. Both in mortality rate and life expectancy he today stands about where the white American stood thirty years ago—by no means a bad showing in the light of the well-known background disadvantages under which his progress has been made.

"A study of the two million policy holders of the Metropolitan Life Insurance Co. reveals a mortality rate still lower, the figures for 1926 being 14.6 per thousand among this group as against 17.5 per thousand in 1911. Most gratifying has been the decreasing mortality from tuberculosis, which still causes the death of one in every six. A decline of 44 per cent in the tuberculosis death rate between 1911 and 1926 and a decrease of 54.5 per cent in tuberculosis among children in the same period indicates that this peculiarly destructive disease is rapidly yielding to the determined assaults that are being made upon it. With all the gains that have been made, however, due to education, sanitation, and public health service, the death rate is still much higher than that of white people—87 per cent higher in the cities and 49 per cent higher in the rural communities, according to the figures of the Public Health service.

"It will be a surprise to many to learn that the death rate is much higher in the cities than in the rural districts, and higher in the northern states than in the South. In the census of 1920 Louisiana showed the lowest mortality rate — 13.5 per thousand —while seven other southern states showed rates of 17.2 or less. That of New York, on the other hand, was 17.6, while in other northern states the rate ran still higher, reaching a maximum of 29.4 in Michigan."

Long Distance Call Unites Girl, Mother

A girl and her mother, separated for 13 years, were united recently by a long distance telephone call while still several thousand miles apart.

Since her two-year-old daughter was taken from her and placed in the custody of another family Mrs. William Kendall of St. Marys O., has searched for the missing child.

She recently discovered that her daughter was living in Taft, Calif. and, upon hearing the news, immediately called that city by long distance telephone. A few moments later she heard the voice of her child for the first time in 13 years.
